ABOUT OUR COMPANY

In 1974, we started salt production as a sole proprietorship with the aim of producing near the market area in the Serdivan district of Sakarya. Since our establishment, we have closely followed changing market conditions and advancing production technologies, continuously improving our quality and prioritizing customer satisfaction.

In 1998, we transformed into a family company under the name **Özyıl Salt Operations Food Transportation Machinery Construction Trade and Industry Limited Company** With this transformation, we expanded our scope of operations and continued to produce and supply various types of salt, primarily for the food industry, as well as for the health, industrial, and many other sectors.

VISION

By combining the knowledge and experience accumulated over the years with our approach of providing reliable and timely service to our customers, we continue our commercial activities both domestically and internationally. We continue to work with the values of quality in production, trust in service, and leadership in the industry.

MISSION

As Marmara Tuz, we take pride in being recognized as “The Name of Trust in Salt”, backed by nearly half a century of experience and a family tradition carried forward through three generations.

From food-safety-compliant table and natural rock salts to tailored solutions for agriculture and animal husbandry; from high-purity tablet salts designed for water treatment, textile, and chemical industries to specialized industrial applications, we serve a broad and diversified product range.

With our nationwide warehouse network across Türkiye, laboratory-approved quality standards, and fast, reliable delivery infrastructure, we bring premium, fit-for-purpose salt solutions to our customers at competitive prices—without compromising on sustainability and innovation.

FOOD & TABLE SALTS

01 Iodized Table Salt

1500 gr

Ingredients; Mechanically Refined Table Salt, Potassium Iodate (25-40 mg/kg)

Storage Conditions: Store in a cool, dry, and dark place with the lid closed. Do not place near aromatic substances.

Packaging:

1500 g Iodized Table Salt - 10 Units - Plastic Box

02 Refined Iodized Table Salt

750gr, 1500gr, 3000gr

Ingredients; Refined Table Salt, Potassium Iodate (25-40 mg/kg), Anti-caking Agent Storage Conditions Store in a cool, dry, and dark place, sealed. Keep away from aromatic substances.

Packaging:

750 g Refined Iodized Table Salt - 4 Units per Carton Box

1500 g Refined Iodized Table Salt - 15 Units per Carton Box

3000 g Refined Iodized Table Salt - 8 Units per Carton Box

03 Coarse Pickling Salt

1500 gr

Ingredients; Coarse Mechanically Refined Salt

Storage Conditions:

Should be stored in a dry place with the lid tightly closed. Keep away from aromatic substances.

Packaging:

1500 g Coarse Pickling Salt - 10 Units - Plastic Box

FOOD & TABLE SALTS

04 Food Industry Salt, Refined

25 kg, 50 kg, 1 ton

Ingredients:

Refined Food Salt, Anti-Caking Agent

Storage Conditions:

Should be stored in a dry environment in a sealed container. Do not place next to aromatic substances.

Packaging:

25 kg Refined Tablet Salt - Laminated P.P. Bag

50 kg Refined Tablet Salt - Laminated P.P. Bag

05 Food Industry Salt, Mechanical Refined

25 kg, 50 kg, 1 ton

Ingredients:

Mechanical Refined Food Salt, Anti-Caking Agent

Storage Conditions:

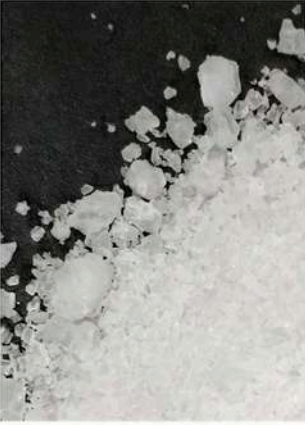

Should be stored in dry environments in a sealed container. Do not place near scented substances.

Packaging:

25 kg Refined Tablet Salt - Laminated P.P. Bag

50 kg Refined Tablet Salt - Laminated P.P. Bag

WATER SOFTENING SALTS

Washed Coarse Salt

25 kg, 50 kg, 1 ton

Ingredients: NaCl

Storage Conditions:

Store in a dry and moisture-free environment, sealed tightly.

Packaging:

25 kg Washed Coarse Salt - P.P. Bag

50 kg Washed Coarse Salt - P.P. Bag

1 Ton Washed Coarse Salt - Big Bag

Mechanical Tablet Salt

25 kg, 1 ton

Ingredients: NaCl

Storage Conditions:

Store in a dry and moisture-free environment, in a sealed container.

Packaging:

25 kg Mechanical Refined Tablet Salt -

Laminated P.P. Bag

PDV Tablet Salt

25 kg, 1 ton

Ingredients: NaCl

Storage Conditions:

Store in a moisture-free and dry environment, with the lid closed.

Packaging:

25 kg Refined Tablet Salt - Laminated P.P. / P.E. Bag

Round and flat tablet options are available.

TUZ

ANIMAL FEED SALTS

They are used to optimize the healthy growth, development, and reproductive performance of animals.

NATURAL ROCK SALT

Ingredients; NaCl, Natural Rock Salt

Storage Conditions;

Should be stored in a dry environment with the lid tightly closed. Keep away from aromatic substances.

FEED SALT

10 kg, 25 kg, 50 kg, 1 ton

Ingredients: NaCl

Storage Conditions;

Store in a moisture-free an dry environment.

Packaging:

5 kg Feed Salt - P.P. Sack

25 kg Feed Salt - P.P. Sack

50 kg Feed Salt - P.P. Sack

LICK BLOCKS

3 kg, 5 kg, 10 kg

Ingredients; NaCl, Minerals, Vitamins

Storage Conditions;

Store in a dry and moisture-free environment.

Packaging:

3 kg Lick Block - 3 kg x 4 Units – Plastic Box

3 kg Lick Block - 3 kg x 8 Units – Cardboard Box

5 kg Lick Block - 5 kg x 4 Units – Cardboard Box

10 kg Lick Block - 10 kg x 2 Units – Cardboard Box

ROAD DE-ICING SALTS

💡 *They lower the melting point of ice at low temperatures, enhancing road safety.*

Road Salt

25 kg, 50 kg, 1 ton, Bulk

Ingredients: NaCl

To inform;

It is spread on roadways to prevent the accumulation of snow and water from freezing, acting as a de-icing agent. It increases tire grip on the road, ensuring a safer journey.

POOL SALTS

💡 *Pool Salts enable efficient chlorine generation in pools, ensuring clean, clear, and hygienic water.*

01 Pool Salt Tablets

Pool Salt Tablets are refined sodium chloride products designed for saltwater pools and salt chlorination systems, providing controlled dissolution and stable chlorine generation.

- High-purity NaCl
- Controlled tablet dissolution
- Suitable for salt chlorination systems

POOL SALTS

02 Refined Pool Salts

Refined Pool Salt is a high-purity sodium chloride that dissolves quickly and evenly, supporting efficient chlorine production and stable pool water chemistry.

- $\geq 99.5\%$ NaCl purity
- Fast and uniform dissolution
- Additive-free

03 Mechanical Pool Salt

Mechanical Pool Salts are mechanically processed sodium chloride products offering a cost-effective solution for standard saltwater pool systems.

- Standard NaCl purity
- Granular structure
- Economical option

HEALTH SALT

SPA & WELLNESS

High-purity natural salts for balneotherapy, hydrotherapy, and cosmetic formulations.

01 Bath Salts

Type: Unrefined Mineral Salt (High Solubility).

Application: Hydrotherapy pools, flotation tanks, jacuzzis.

Benefit: Promotes reverse osmosis (toxin elimination) and muscle relaxation.

02 Pedicure & Foot Care Granules

Grain Size: Coarse / Medium (Optimized for mechanical peeling).

Function: Keratolytic agent (Softens calluses & hard skin).

Hygiene: Creates a saline environment to inhibit bacterial/fungal growth.

Use: Professional pedicure basins and foot spas.

03 Natural Salt Soaps

Composition: 100% Solid Rock Salt Block.

Specs: Odorless, Additive-free, Hypoallergenic.

Action: Neutralizes skin pH; effective for acne and eczema.

Target: Spa retail points and treatment rooms.

04 Salt Bricks & Construction

Material: Himalayan or Rock Salt Blocks.

Application: Wall cladding for Salt Rooms (Halotherapy) & Saunas.

Tech Spec: Natural negative ion generator & humidity regulator.

HEALTH SALTS

PREMIUM MINERAL & GOURMET SALTS

Rare minerals and global sourcing; chemically pure, geologically rare, and unrefined salts.

01 Persian Blue Salt

Key Mineral: High Potassium (Sylvite) content.

Visual: Unique natural sapphire-blue tint.

Grade: Ultra-Premium finishing salt for fine dining.

02 Crystal Halite Salt

Purity: >99.5% NaCl (Sodium Chloride).

Structure: Macro-crystalline, transparent cubic form.

Feature: Highest bio-energetic value; glass-like clarity.

Use: Pharmaceutical applications and luxury grinding.

03 Himalayan Pink Salt

Mineral Profile: Contains 84 trace elements (Iron Oxide creates the pink hue).

Forms: Fine (0-1mm), Granule (2-5mm), Chunks.

Status: The global standard for healthy gourmet salt.

04 Natural Rock Salt

Processing: Crushed & Screened (No refining, No bleaching).

Additives: 0% Anti-caking agents (No E535/536).

Moisture: <0.5% (Excellent shelf life).

Use: Industrial food processing and general milling.

PRODUCTION AND QUALITY

✓ Production and Quality Approach

Marmara Tuz develops sector-specific products through controlled and sustainable production processes. Our approach is shaped by the product's application, granule structure, and performance requirements, and is built on a carefully managed multi-stage production system.

Key priorities include maintaining product purity, ensuring granule consistency, and delivering stable performance. Accordingly, processes such as washing, sieving, mechanical treatment, and refining are applied based on the characteristics of each product group.

Quality at Marmara Tuz is a comprehensive process that covers every stage from raw material to shipment. All products are controlled according to defined technical criteria and prepared in line with industry standards and intended use.

Our production and quality systems are designed to meet the technical demands of food, industrial, agricultural, infrastructure, and pool applications, enabling Marmara Tuz to deliver consistent quality, reliability, and long-term supply stability even at high volumes.

PACKAGING AND LOGISTICS

Packaging and Logistics Capability

Marmara Tuz delivers its products safely and on time through packaging and logistics solutions tailored to different sectors and markets. Our packaging approach focuses on protecting the granule structure, preventing quality loss during transportation, and ensuring ease of use at the point of application.

Products are supplied in standard and high-capacity packaging options according to usage and volume requirements, with durability and product integrity prioritized to maintain performance during storage and long-distance transport.

Logistics processes are planned to support regular shipments and high-volume loading, offering flexibility in scheduling, loading arrangements, and delivery models across different markets. This capability positions Marmara Tuz as a reliable operational partner beyond product supply.

Packaging Options

- 25 kg bags
- Big bags
- Customized packaging solutions
-

Logistics Approach

- Regular and planned shipments
- High-volume loading capacity
- Adaptable to different markets and delivery models

EXPORT CAPABILITY

Export Capability and International Partnership Approach

Marmara Tuz manages its export operations within a structured and sustainable framework, supplying sector-specific products to international markets. Our approach is based on regular supply, operational alignment, and long-term business partnerships.

Packaging, loading, and delivery models are planned in line with market conditions and buyer expectations, ensuring continuity and predictability in export operations. Beyond product supply, Marmara Tuz works in close operational harmony with distributors, wholesalers, and project-based buyers.

Transparent communication, planned shipments, and consistent production enable Marmara Tuz to remain a reliable and preferred supplier in global markets.

Our Export Approach

- Regular and planned shipments
- Market-specific product and packaging options
- Long-term distributor and partnership focus
- Flexibility for project-based and high-volume orders

WHY MARMARA TUZ

Why Should You Work with Marmara Tuz?

Marmara Tuz offers a wide product portfolio for multiple sectors through a sustainable production and planned supply approach, focusing on long-term, trust-based partnerships rather than one-time transactions. Consistent quality in production and stable supply operations position Marmara Tuz as a reliable supplier in both local and international markets.

Key Strengths of Marmara Tuz

- Continuity: Regular production and planned supply structure
- Product Range: Solutions for food, industry, agriculture, infrastructure, and pool systems
- Operational Flexibility: Adaptability to different markets and delivery models
- Reliability: Transparent communication and predictable processes
- Long-Term Partnership: Project- and distributor-focused collaboration

Through this integrated approach across the supply chain, Marmara Tuz serves not only today's needs but also as a dependable partner for future growth.

CONTACT AND PARTNERSHIP

Communication and Partnership

Marmara Tuz aims to build long-term and sustainable commercial relationships with business partners across different sectors. Our product portfolio is structured for companies that value regular supply, operational alignment, and consistent quality.

For distributorships, bulk purchases, and project-based supply requirements, you are welcome to contact the Marmara Tuz team. Our experienced team will be pleased to support you in selecting the most suitable products and supply models for your needs.
